

BUYER'S GUIDE 2007

146 FUN AND PRACTICAL PRODUCTS FOR
BABIES, TODDLERS AND THEIR PARENTS

ILLUSTRATIONS BY SARA FANELLI

iT'S RAINING BABY STUFF! Well, not really, but there truly never has been such an abundance of products out there to keep babies safe, entertained and well-fed and to make parents' lives as hassle-free as possible. That's good news in itself, but the even better news is that quality is keeping up with quantity, as stylish, modern-looking yet practical designs become more available and affordable. But much as we love form, for us—as it should be for you—function is the most important thing. Whether it's a crib or a carrier, a nursing bottle or a baby's toy, every product selected for inclusion in our 10th Annual Buyer's Guide had to pass muster with our pint- and adult-size testers. If we loved the look of a product but it didn't perform the job it was intended to do, it simply didn't make the cut.

Our goal is to take the guesswork out of buying baby products; if we've done that for you, we've done our job. — *The Editors*
